To search for names of people or business, type keywords into the search bar in your PDF reader. If a keyword search doesn't turn up expected results, it is recommended that you also scroll down into the alphabetical listings to search for the name, as the font-reading software is not perfect.

The table of contents below can also give you an idea of where to look within the document for other kinds of information listed in the directory, like street guides and government agencies. Note that the PDF page number and the original directory page numbers are different, because the color-printed advertisement pages in the directories were not numbered.

Table of Contents:

<u>Description</u>	<u>PDF page number</u>
Title page	2
Directory listings	6 – 509
Index to Advertisements	510
Late insertions	511
Street and Avenue Directory	512 – 547
Appendix: City government agencies and public services listings, including banks, churches, etc.	512 – 580
Advertisements	581 – 609

THE
BROOKLYN CITY
DIRECTORY

This Book Is A Gift Of
HAROLD and CELIA BAKERMAN

FOR

THE YEAR ENDING MAY 1ST,

1862.

COMPILED BY J. LAIN.

PUBLISHED BY J. LAIN AND COMPANY.

OFFICES: POST OFFICE BUILDING, MONTAGUE STREET, NEAR COURT STREET,
BROOKLYN, AND 113 FULTON STREET, NEW YORK.

PRICE, TWO DOLLARS.

Entered according to Act of Congress, in the year one thousand eight hundred and sixty-one,

By J. LAIN AND COMPANY,

In the Clerk's Office of the District Court of the United States, for the Southern District of
New York.

P R E F A C E .

IN offering to the citizens of Brooklyn their annual Directory, it seems proper to call their attention to certain matters connected with the public interest and convenience.

When Williamsburgh and Brooklyn were consolidated under one Municipal Government, in a number of cases more than forty of the streets and avenues of what are known as the Eastern and Western Districts, had the same name, and for some reason the inconvenience yet continues.

Another evil similar in character relates to the numbering of the streets. In many streets not only are the numbers very irregular, but two or more houses have the same number.

We have felt it due to ourselves and the public, to notice the neglect of those having the matter in charge. So long as the evils of which we complain exist, they necessarily impair to a certain extent the completeness and efficiency of the Directory. They are perplexing to those of our citizens who are not familiar with the localities in which they occur, and to the strangers who visit our city they prove a source of great annoyance and confusion.

And we would here improve the opportunity to caution the public against certain unprincipled persons, who under various pretexts endeavor to get up what may well be called bogus Directories. It is believed that to secure themselves from loss, such parties must either offer to the public a deficient and imperfect work, or they are reduced to the dishonorable necessity of copying from our Directory, about all that is valuable in theirs, in this way avoiding the expense of canvassing. If they cannot, under false pretenses, obtain advance sheets or early copies from our press, they either publish their own production in a state of incompleteness, or wait our issue, that without cost or labor they may appropriate its excellencies.

After several years' experience, and the most favorable facilities for inquiry and comparison, we are convinced that the plan adopted in the preparation of this work is the most systematic, accurate, and reliable that has yet been discovered.

And we feel confident that an intelligent public, appreciating the completeness of our Directory in all its parts, will continue to favor us with their patronage and support.

HORTON, ROBERTSON & CO.,
42 FULTON STREET, NEW YORK,

ONE DOOR FROM THE CORNER OF PEARL STREET,

IMPORTERS AND MANUFACTURERS OF

WATCHES, JEWELRY,

SILVER WARE & PLATED GOODS.

Have constantly on hand a fine assortment of **WATCHES**
of superior finish, made expressly to our order.

SILVER WARE OF STERLING QUALITY,

AND AT RATES MUCH LESS THAN USUAL PRICES.

ENGRAVING IN ALL ITS BRANCHES,

INCLUDING WEDDING & VISITING CARDS OF THE LATEST STYLES,

Executed on the premises by **WM. CHAPMAN.**

Watches Repaired in the best manner, and Warranted:

JEWELRY REPAIRED ON THE PREMISES.

GRATES, FENDERS, AND FIRE PLACE HEATERS.

This cut represents a Heater to set into the fire-place, designed for heating the basement, parlor and 2d story. It occupies no more room than an ordinary grate. Its superiority over others is manifested by its being composed entirely of cast iron, and flues so constructed as to prevent choking. The air is received either from basement or cellar, and in passing through the various flues acquires a genial warmth, which is diffused throughout the rooms at pleasure.

W. JACKSON & SON,

Late of the well-known firm of
W. & N. JACKSON & SONS.

Manufacturers and Dealers in
every variety of

Parlor Grates FENDERS,

AND

Fire Place Heaters,

246 FRONT ST.,

Near Peck Slip,

AND

930 Broadway,

BETWEEN

21st and 22d Streets,

STATEN ISLAND Fancy Dyeing Establishment,

Offices: Nos. 5 & 7 JOHN STREET, NEW YORK,

AND

47 North Eighth Street, Philadelphia.

The dyeing of *Silk, Woollen and Fancy Goods*, has, for a long term of years, occupied the close attention of the undersigned at *Staten Island*. For the last ten years, it has been their *exclusive* business, for which they have built up a New Establishment at *Staten Island*, now the most extensive for this business in the country, and, as far as known, in the world. All the approved appliances and apparatus of the art have been here brought into requisition, the most competent and expert of foreign dyers and chemists have been induced to work in their establishment, and for large fees, to impart the important modern discoveries of European dyers.

Great improvement has been made in the dyeing and re-finishing of

ENGLISH & FRENCH CRAPEs,

to which the attention of the trade is particularly called.

Especial effort and expense has also been devoted to dyeing and re-finishing SATIN AND TAFFETA RIBBONS, which they are now enabled to do *in a style new in this country*, and altogether superior.

Broadcloths, Cassimeres, Coburges, Merinoes, Delaines, Challies, Bareges, Lawns, Silks, Satins, Canton Crape, Velvets, &c., &c., dyed and re-finished in the best manner.

Merinoes, Mousseline Delaines, Opera Flannels, &c., are successfully dyed and re-finished from the loom or "GRAY" state.

All kinds of Trimmings, Galloons, Gimps, Fringes, Buttons, &c., dyed.

Crape and other Shawls dyed to any given shade.

The undersigned have but *one* office in New York. *They have no office in the City of Brooklyn.*

Goods received and returned by Express.

BARRETT, NEPHEWS & CO.,

5 and 7 John Street, New York.

STATEN ISLAND FANCY DYEING ESTABLISHMENT,

Offices: Nos. 5 & 7 JOHN STREET, NEW YORK,

AND

47 North Eighth Street, Philadelphia.

The friends and customers of the undersigned, some of whom have been such *over thirty years*, are aware of the great improvement and steady advance which have been made by them in the style of their Dyeing, Cleansing and Re-finishing, as well as in the dispatch with which orders are executed. In dyeing Ladies' Silk, Satin, Merino, and other Dresses, they have made very great improvements. In a large proportion of cases, these articles are made, in color and finish, very nearly equal in appearance to new goods.

Crape Shawls, Cloaks, Mantillas, Velvet Garments, &c., &c., are also very successfully treated. Faded and stained goods restored or re-dyed.

SILKS & SILK DRESSES WATERED

Lace and Muslin Curtains, Carpets, Rugs and Table Covers,
Cleansed and Re-finished. Damask and Moreen Curtains
beautifully Dyed, also Hosiery, Gloves, &c.

ORDERS EXECUTED WITH CARE AND DISPATCH.

GOODS RECEIVED AND RETURNED BY EXPRESS.

The undersigned have but one office in the City of New York. They have no office in the City of Brooklyn.

KENYON'S WATER APPARATUS, THE GUARANTEE HYDRANT!

Patented February 19, 1861.

This unrivalled hydyant is non-wasting, non-freezing, self-closing, self-cleaning, neat, close, compact, very strong and remarkably agreeable to operate. It is at once the most simple and original invention of its class in the world. It will be *guaranteed* till its material rots in the ground, and its price is the same as the commonest hydrant in the market. It has already taken the place, in several instances, of other hydrants of various kinds that have broken down since the introduction of the Ridgewood water. For places in which they may be seen in operation, see the daily prints. Also, will be presently introduced

Kenyon's Anti-pressure Faucet, and Kenyon's Self-closing Faucet,

Articles of the first necessity in connection with our immense water pressure. Apply to the Plumbers, or through the Williamsburgh Post Office, to

JAMES P. KENYON, Inventor,

First, foot of South 2d Street.

CONNERS'
UNITED STATES TYPE FOUNDRY,
Nos. 28, 30 & 32 CENTRE STREET,
NEAR THE CITY HALL, NEW YORK.

TO PRINTERS AND PUBLISHERS.

The undersigned beg to inform the trade that their

NEW QUARTO SPECIMEN BOOK

is much enlarged and beautified, with numerous new and elegant articles, of a decidedly superior order, which to enumerate would occupy too much space—yet they cannot forego calling the attention of printers to the two

NEW SERIES OF SCOTCH CUT FACES,

From Pearl to Pica—surpassing, if possible,

THEIR ORIGINAL SCOTCH CUT FACES,

Which have given such universal satisfaction (and are now being imperfectly imitated) East, West, North and South,

THE FANCY TYPE DEPARTMENT

Exhibits an unsurpassable quantity of styles, of Home Origin, and selected from England, France, and Germany. And their

New American Scripts, Round Hand, and Italian Scripts,
BORDERING, &c.

Are not to be excelled in this, or any other country; and this the undersigned make bold to say of their specimens, as they have now reached a point (by large outlay and perseverance) originally aimed after—that is, to excel in quality of the article furnished, and in the variety of styles presented for selection—surpassing all similar Establishments. The several styles have only to be seen to be appreciated. Particular attention is called to their German department—wherein is shown as splendid

German Faces and Styles

As can be seen in the German Confederation or the United States. Particular attention having been given to the selection, in obtaining the styles from the very best type foundries throughout Germany, whether for Book, Job, or Newspaper printing. ALL TYPE cast at their establishment is now manufactured from the METAL known as

Conner's Unequalled Hard Type Metal,

Which HAS SECURED the printing of the enormous number of

TWENTY-TWO TO TWENTY-EGHT MILLIONS OF SHEETS,

And doing GOOD SERVICE for the period of near ONE YEAR—as will be verified at the office of the *New York Herald*, many of the Daily and Weekly Newspapers in this city, and throughout the United States and Canadas, as well as by a large number of Book and Job Printers using Machine Power Presses.

Every Article necessary for a perfect Printing Office furnished, as above, and by our Agents,

GEORGE H. VINTEN, New Orleans, La.

WILLIAM FAULKNER, San Francisco, Cal.

S. P. ROUNDS, Chicago, Ill.

ELECTROTYPING and STEREOTYPING in all their branches, executed in the BEST STYLE. TYPE COPPER-FACED TO ORDER, at an additional charge of about 20 per cent. Old type received at our counting-room, in exchange for new, at 10 cents per pound. SIX MONTHS' CREDIT ON APPROVED PAPER; or a LIBERAL DISCOUNT FOR CASH.

Specimens are now ready, and will be sent to such as are about ordering Type, &c.

SAVE YOUR CARPETS!

HARRINGTON'S PATENT CARPET LINING.

This article is used for laying under Carpets, Oilcloth, and Matting, as a substitute for paper, straw, &c. It protects the Carpets from nail-heads, or any unevenness in the floor; it muffles the sound of footsteps; causes an inferior Carpet to feel equally as rich to the tread as a tapestry velvet, and is warranted to add 50 per cent. to the durability of Carpets, Oilcloth, and Matting. It is in use under the Carpets of the principal Hotels, Steamboats, and Churches. For sale by any of the Carpet Dealers, and wholesale by the sole manufacturers,

THE NEW YORK CARPET LINING COMPANY,

J. R. HARRINGTON, Agent,

Office, 11 Dey St. Salesroom, 440 Pearl St., New York.

STREET AND AVENUE DIRECTORY

OF THE

(CONSOLIDATED)

CITY OF BROOKLYN,

Corrected and revised in accordance with the latest Corporation numbers up to May, 1861.

Showing the position, commencement, and termination of each Street, Avenue, Place, Lane, Court, Alley, etc., in the Consolidated City, with the junctions and crossings of the intersecting streets; also, the number of the building at the corner of each street, avenue, etc., when there is any.

When there is no house on the corner, or where the corner house fronts on the crossing street, the number nearest the corner is given, and a * placed before it to denote that that number is not to be looked for on the corner of the street or avenue named.

A — denotes that there is no number on the corner or near the corner.

A † placed in the right or left column denotes that the street does not extend to that side of the one under whose heading it is found.

As a rule, the numbers will be found to commence westward and northward from the opening of the street or avenue, the *even* numbers occurring generally on the *right hand* side.

EXPLANATIONS.

If you wish to find the location of any number—for instance, 115 Bridge Street—on consulting the Directory you will observe that 105 Bridge is on the left hand of that street and on the corner of Prospect, and 129 Bridge is on the left hand corner of Sands; hence, the desired location of 115 Bridge is between Prospect and Sands, on the left hand side.

The capitals E. D., when placed after a street, avenue, etc., denote that it is in the Eastern District. As there are several streets in Greenpoint, Bushwick, and Williamsburgh of the same name, and all being reckoned as the Eastern District, the exact location of such streets is given in connection with the capitals E. D.

Note.—As there are two Hudson Avenues in the Western District—one running from East River, between Gold Street and the Navy Yard, south to 208 Fulton Avenue, the other from Fulton Avenue, between Brooklyn Avenue and Albany Avenue, south to City Line (Flatbush)—the latter will be designated through the body of this work by *Italics*.

SHEPARD'S SUPERIOR RANGES.

CHAS. J. SHEPARD'S
Desirable Cooking

RANGES,

EIGHT SIZES.

THE EXTRA LARGE FOR
HOTELS AND DINING SALOONS

LESSER SIZES FOR

BOARDING HOUSES,

And Four Sizes expressly for

FAMILY USE,

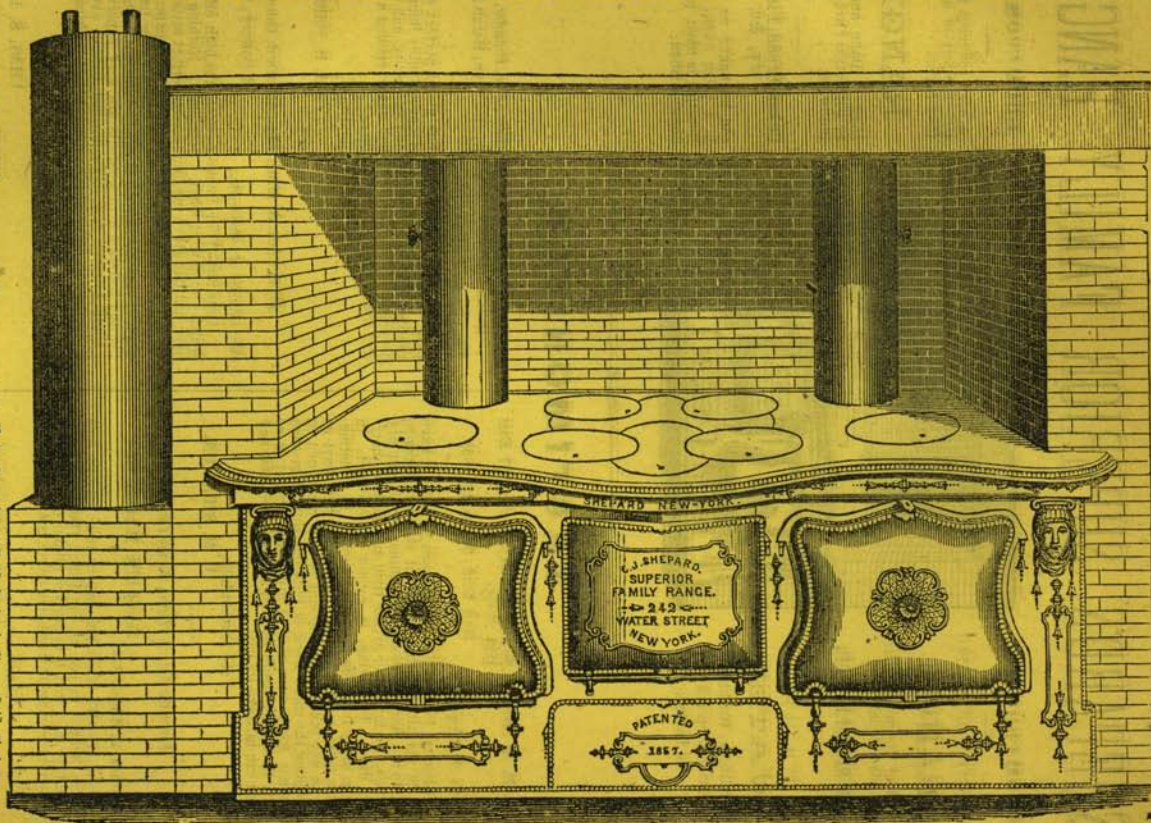

Consuming far less Fuel than
any other Range, com-
pleting all cooking in
the most desirable
manner.

Salesroom, 242 Water St., N. Y.

An examination of Shepard's
Superior Ranges will satisfy
all, that nothing is offered to
equal them in style, economy,
efficiency or durability. Their
economy is unquestionable.
The cost of a Range will be
amply repaid in the great
saving of fuel. The superior
Baking and other culinary
operations, by their perfec-
tion alone, would also save
much that is now wasted.

These Ranges are extra
strong and durable, no weight
of metal or expense has been
spared to make them com-
plete.

SALESROOM,
242 Water Street, N. Y.

SHEPARD'S SUPERIOR FAMILY RANGES.

GOOD COOKING.

A PERFECT OPERATING

RANGE

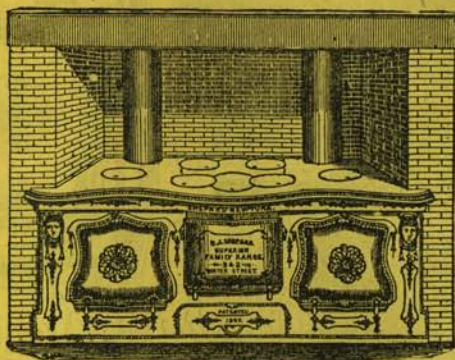

Is one of the most desirable articles for

HOUSEHOLD USE.

BY IT ALL THE

WATER.

For Bathing, Washing and culinary purposes may be heated.

GOOD COOKING.

What conduces more to the comfort of a family than a good

RANGE?

Does it Bake and Roast to perfection? are the first inquiries.

Cakes, Bread, Pies, Pastry, &c.

can be baked as well as in a brick oven, and the Roasting is most perfectly accomplished.

TESTIMONIALS.

From R. M. Stratton, Novelty Iron Works, No. 167 East 18th Street.

New York, 3d Mo. 13, 1858.

Charles J. Shepard—

Esteemed Friend—During the past 12 years, I have used in my kitchen three different styles of Ranges, and I do not hesitate to say that thine, for all culinary purposes, is a far better article than any we have heretofore used. In Baking, it cannot be excelled. In Boiling, many facilities are experienced. In Roasting, in a tin oven in front, it has performed that part as well as any other. The amount of fuel consumed in performing the same work is fully one-third less than any other Range ever used in my family, and it is so simple in its arrangement that I cannot see how any person can mistake its use.

Very respectfully,

R. M. STRATTON.

From the Darcy House, Jersey City.

Jersey City, March 5, 1858.

Mr. Chas. J. Shepard—

Dear Sir—We have had one of your largest size Cooking Ranges in use at our Hotel, (Darcy House,) Jersey City, and find it to answer all our expectations, and would recommend it as being one of the best Ranges in use.

Yours,

TAYLOR & SYLVESTER.

From Wm. Hickok, Esq., Minnesota Mining Co.

New York, Feb. 17, 1858.

Mr. Charles J. Shepard—

Dear Sir—I have never had any convenience for cooking which has pleased me as well as your Range.

It consumes much less coal than I had supposed possible, and the ovens furnish the most finished Baking. Either for Baking, Roasting, Broiling, or any kind of family cooking, it is very complete.

Yours, truly,

WM. HICKOK.

From H. B. Scholes, Esq., Iron Founder.

Bedford Av., cor. Ross St., Brooklyn, March 2, 1858.

Mr. Charles J. Shepard—

Dear Sir—Your Range has given perfect satisfaction. I can recommend it as a good family Range, combining simplicity, economy and durability, and one that servants can manage. It has never spoiled a dinner, and bakes bread to perfection.

Very respectfully,

H. B. SCHOLES.

From Chas. S. Hine, Esq., Stamford, Conn.

13 Bowery, N. Y.

Mr. Charles J. Shepard—

Dear Sir—Your Range exceeds the high character which you gave it when I purchased. Nothing I have ever had has given my family such perfect satisfaction, or executed as much work with as little expense. It consumes far less fuel than any Range I ever had—half a ton of coal per month is amply sufficient. The Broiling and Roasting arrangements are very superior, and I think I never saw more finished baking even in a brick oven. You have the most perfect Cooking Range for family use ever offered.

Very respectfully, yours,

CHAS. S. HINE.

From David Syme, Sup't Public School No. 6.

Brooklyn, March 9, 1858.

Mr. Charles J. Shepard—

Dear Sir—The Range has given, and continues to give, entire satisfaction.

I find, after a trial of ten months, that you had not overrated its excellent qualities. Its fitness and efficiency are unquestionable.

You deserve great credit for supplying the public with an article so well adapted for culinary purposes, and at a price so reasonable.

Yours,

DAVID SYME.

SHEPARD'S RANGE TESTIMONIALS.

From Thomas B. Stillman, Esq., New York.

Mr. Chas. J. Shepard—

Dear Sir—I shall not fear an appeal to any members of my family, who have had the privilege of using your Range, in verifying all that I have to say in regard to its merits.

For convenience, it excels any Range I have ever used, in the adjustment of the cooking utensils, and to the ovens as well as to the grates, in which you have made a great improvement.

In efficiency, your Range has no superior within the compass of my knowledge, both for the various kinds of cooking and for baking, for which it is superior.

In economy, I find a great advantage over any other Range I have ever seen—the consumption of fuel being far less than usual.

Yours, truly,

THOMAS B. STILLMAN.

From Rev. P. J. Van Pelt, 73 Hammond St.

New York, Feb. 23, 1859.

Mr. Chas. J. Shepard—

Dear Sir—It gives me pleasure to say, that [your Kitchen Range gives entire satisfaction.

Yours,

P. J. VAN PELT.

"WEST'S HOTEL,"

Sandusky, Ohio, Dec. 29, 1858.

Chas. J. Shepard, Esq—

Dear Sir—Your Range has been in constant use in our hotel for four months, during which the State Fair was held at this place, when we cooked for over eight hundred persons.

It gives us pleasure to state that it did its work admirably.

Mr. Thos. Skank, our chief cook, who has been in the business for the past thirty years, says it is the best Range he ever saw; it heats very quick, and does not get out of order. We are very much pleased with it.

Yours, respectfully,

W. T. & A. K. WEST,

Proprietors.

From F. G. Berteau, Esq., Chicago.

Chicago, Jan 27, 1859.

Mr. Chas. J. Shepard—

Dear Sir—It gives me pleasure to certify that, for the last eighteen months, I have been using one of your Ranges. I have found it far superior to any I had used before, as to convenience for cooking; and as to saving, it certainly consumes much less coal than any of the other Ranges I have used.

Yours,

F. G. BERTEAU,

Principal of an Institution for Young Ladies, Chicago, Illinois.

From David Drake, Esq., Lenox Fire Ins. Co.

Hudson City, N. J.

Chas. J. Shepard, Esq.—

Dear Sir—The Range purchased of you has given entire satisfaction, consuming but about one ton of coal in fifty to sixty days—baking to a charm; and the Roaster (which, by the way, is a great addition) gives us meats and poultry cooked in the old-fashioned style, instead of being baked in the side ovens, which, as all epicures know, is a very unsatisfactory method of cooking most meats, &c.

Very truly yours,

D. DRAKE.

From "Sailors' Home," Cherry Street,

Sailors' Home, New York, 23 Feb., 1859.

Mr. Chas. J. Shepard—

Dear Sir—The Cooking Range you placed in the Sailors' Home, about four months ago, has been in constant use ever since, and permit us to say, that it has acted like a charm, and given entire satisfaction in every particular.

It has all the good qualities for which it is intended—and my wife (who has charge of the culinary department) desired me to say, that it consumes about one-third less coal than the one you removed, though of the same size; and it also Broils, Bakes, Roasts and Boils to perfection. She says it has no superior, and if you attempt to make any improvements in it you will spoil the whole.

Respectfully yours,

ED. WALFORD,

For RICHARDSON & WALFORD, Superintendents.

From G. W. Fordham, Chief Steward of the Collins Steamer "Adriatic."

March 1, 1858.

Mr. Chas. J. Shepard—

Dear Sir—After using one of your Superior Family Ranges for nearly a year, it gives me pleasure to state that its operation has always been very satisfactory. Having used previously several descriptions of Ranges, and after canvassing their merits, I have found that none of them possessed such an admirable combination of excellent and desirable qualities as is to be had in yours.

Your Range excels others in its simple construction, its easy management, in the convenient arrangement of the cooking utensils, in the two fine operating and large ovens, which well supply the place of the old-fashioned brick oven, and in the sliding fire-grate, which operates instantly and effectively in clearing the fire-place, without the usual annoyance of flying ashes.

But a more special and important advantage, one that housekeepers cannot fail to appreciate, is in the great economy of your Range. It certainly requires but very little fuel, and it is so constructed that it is not liable to get out of order.

You can, therefore, safely say, that you have the most economical and the finest operating Range ever used.

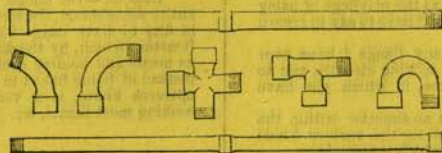

Yours,

GEO. W. FORDHAM,

Chief Steward Steamship Adriatic.

DANIEL LORD, Counsel.

Procurement of Assurance.

Forms of Application for Assurance can be obtained at the Society's Office, No. 92 Broadway, New-York, or from any of its Agents. If desired, they will be sent by mail. These forms contain questions to be answered by the applicant, in regard to his age, residence, occupation, health, and liability to constitutional or hereditary disease. There are other questions to be answered by his family-physician, (if he has one,) and by a friend, to confirm the party's own testimony. There are, finally, questions to be answered by a physician after a personal examination of the applicant. This physician should properly be one of the regular Medical Examiners, approved of by the Society; but, in places where there are none such, examinations by a reputable physician will be received.

All the questions should be answered carefully and fully, as neglect may lead to an invalidation of the policy.

All applications sent to the Society will be considered; and, should further information be necessary, notice will be given to the applicant.

Kinds of Policies.

Policies will be issued, assuring any amount between \$250 and \$10,000.

For life;

For a term of years—one or more.

The Society strongly advises all to take policies for the whole of life; because, if at the end of a certain time, the assurance is no longer necessary, the policy may be sold to the Society for a price about equivalent to the difference between the premiums actually paid, and those which would have been demanded for the short term; while, if the assurance should happen to be still desirable, the assured, whether diseased or not, has the option to continue at the less premium of the earlier age.

On the Endowment Principle, payable when the assured attains a certain age, or at death, should he die before.

This kind of policy is rapidly gaining favor with the public, as it makes provision, both for one's self in old age, and also for one's family in case of early death.

On Joint Lives, payable at the death of the first of two or more persons.

On Survivorship, payable to a party named, in case he survives another.

And, in a word, all contingencies of life, that can be calculated, will, if practicable, be provided for by the Society.

Policies will be issued—

In favor of the person whose life is assured, transferable by assignment, and payable to himself, his heirs, executors, or assigns.

In favor of another, transferable and payable as above.

In favor of any person as Trustee for others.

In favor of a wife, and payable to her; or, in case of her death, to her children or their guardian.

Here the New-York law, which secures an assurance to the widow and orphan free from the claims of creditors, deserves notice. This law provides as follows :

“ § 1. It shall be lawful for any married woman, by herself, and in her name, or in the name of any third person, with his assent, as her trustee, to cause to be insured, for her sole use, the life of her husband for any definite period, or for the term of his natural life; and, in case of her surviving her husband, the sum, or net amount of the insurance, becoming due, and payable by the terms of the insurance, shall be payable to her, to, and for her own use, free from the claims of the representatives of her husband, or any of his creditors; but such exemption shall not apply where the amount of premium annually paid shall exceed \$300.

“ § 2. In case of the death of the wife, before the decease of her husband, the amount of insurance may be made payable, after death, to her children, for their use, and to their guardians, if under age.”

Restrictions as to Residence, Travel, and Occupation

Persons assured must continue within the settled limits of the United States, or of the British Provinces of Canada, Nova Scotia, and New-Brunswick.

They must not visit those parts of the United States lying west of the 100th degree of West longitude, (which passes West of the most western part of Minnesota,) or between the 1st of July and the 1st of November those parts which lie south of the southern boundaries of the States of Virginia and Kentucky.

Permits to visit Europe in first-class vessels will be usually granted free of charge.

They must not enter upon a voyage upon the high seas, or engage as a Mariner, Engineer, Fireman, Conductor, or Laborer, in any capacity, upon service on any Sea, Sound, Inlet, River, Lake, or Railroad, or in the manufacture of Gun-powder, or of Fireworks, or in submarine operations or mining.

They must not enter into any military or naval service whatsoever, (the militia not in actual service excepted.)

They must not engage in a duel, nor commit suicide, nor die by the hands of Justice, or through the violation of the law of any country.

Otherwise, the assured are free to act according to their pleasure.

Though prudence requires some restrictions on the above points, the Society will promote, as far as practicable, the convenience of the assured, by granting permits to visit or reside outside of the usual limits, or to engage in occupations ordinarily forbidden, charging therefor as little as will, in their opinion, cover the risk. The exact extra charge will depend upon the circumstances of each particular case; but the following are the additions usual to ordinary rates for certain privileges:

For Residence in the Southern Atlantic States, to acclimated persons, an annual charge of one half per cent on the amount assured.

For Residence in the States on the Gulf of Mexico, to acclimated persons, an annual charge of two per cent.

For Residence in California, if not employed in mining, an annual charge of half of one per cent.

For Voyage to or from California and Oregon, one per cent.

For Voyage round the World, two per cent.

For Service as Conductor upon a Railroad, half of one per cent annually.

And the extra charge for every other risk can be ascertained by application to the Society, at their office, 92 Broadway, N. Y.

P r e m i u m s .

Premiums may be paid annually, semi-annually, or quarterly; and they may be made to fall due at any particular date desired, (irrespective of the date of the commencement of the assurance,) by the payment of a proportionate sum to cover the risk until the time of the first regular payment.

By a slight addition to the ordinary rates of premiums, a release from

paying, after the assured attain a certain age, will be granted: this is desirable to lessen the burden upon old age.

The premium required in one payment, to cover an assurance for the whole of life, or for any given term of years, may be obtained; also, the premiums required in five, ten, or more annual payments, to cover the whole term of assurance.

For rates, see tables beyond.

Cash better than Notes.

This Society demands the *whole* of its premiums in cash. Some Companies accept *part* in notes—which bear *interest*, payable annually in advance, are liable to *assessment*, and, in the event of death, are *deducted* from the amount assured. This latter system sometimes deludes those not accustomed to consider remote consequences. What are its results? As years roll on, the notes accumulate; the interest grows annually larger and larger; and the total cash payment consequently heavier and heavier; while the actual amount of assurance—that is, the difference between its nominal amount and the sum of the notes—grows less and less. Thus a provision for one's family gradually changes into a heavy load upon one's self; and, should the assured not be fortunate enough to die soon, there naturally follows an early forfeiture of policies, frequently when an assurance is most desirable.

Moreover, assessments on the notes *may* be made at any time—perhaps when payment is most inconvenient—it may be when an epidemic is sweeping over the land, slaying its thousands, and trying the strength of all Companies; and failure to pay forfeits the policy, though on the morrow the delinquent may himself be a victim of the pestilence. This liability to assessment is often speciously denied; but actions speak louder than words. The fact of the requirement of the note outweighs a thousand mere assertions of its uselessness; for, if nothing is really ever to be paid, what an utter absurdity is a promise to pay. Again, it is evident that a company whose assets are made up largely of notes, can not be so secure as one whose funds are safely invested and ready in any emergency.

For these reasons, this Society has not adopted the note system; and it has been stated that in England, where Life Assurance has been practised, amid the sharpest competition, longer and more extensively than here, the note system has been tried, proved unsound, and abandoned; and that in this country it has been given up by some of

our best managed Companies, after the experience of several years had shown conclusively its disadvantages. And we feel justified in asserting, that however convenient notes may be in ordinary business, their insecurity renders them entirely unfit as the foundation upon which to rest the fortunes of the widow and the fatherless.

See also remarks under "Purchase and Valuation of Policies" beyond.

Apportionment of Profits or Surplus.

At the end of the year 1864, and of every fifth year thereafter, a thorough investigation into the affairs of the Society will be made; the value of the funds on hand will be rigorously ascertained; the amount required to provide for all outstanding claims and risks will be carefully calculated; and the whole surplus over will be equitably apportioned among the assured, and applied, as each may elect, either to the purchase of additional assurance, without further charge for premium, or to abate the amount of future premiums, the sum assured remaining the same. And those who have died before the time of distribution will not be forgotten, but an equitable addition to the amount of assurance will then be paid to their representatives. In this way, the Society, it is believed, will meet the wants of most persons, and avoid the disadvantages attendant upon cash dividends, which, from the necessity of large accumulations of cash at set times, may interfere with the best investment of funds, and, if falling upon a period of monetary stringency, involve some sacrifice. The plan adopted will make all the changes in the finances of the Society gradual, which is an important advantage.

Periods of five years have been preferred to shorter ones for the distributions, because the rate of mortality will be more uniform among a large number, and extending over a long period. Many Companies in England, for this reason, make their dividends only once in seven or ten years. As those who die previous to the distribution are duly remembered in it, no one will suffer loss.

To show assurers how valuable their share of the profits may be, in a Company which gives them *all*, it may be stated that in the Equitable Society of London, (two thirds only of whose profits are applied to the increase of the amount of assurance,) the additions to a policy of £100, taken out at the age of twenty, in the year 1776, would have amounted, had the person died at the age of seventy-four years, to £496; so that while he paid all along merely the *ordinary premium* upon *one hundred pounds*, his representatives would have received, at his death, almost **SIX HUNDRED POUNDS.**

Truly, in such a Society, both early death and long life give a good pecuniary result; and hence it can be seen that, considered purely as an investment, money spent in Life Assurance may pay well.

Purchase and Valuation of Policies.

As a person, paying a uniform annual premium, pays at first more than is necessary to cover the risk, it follows that, should the assured wish to terminate the contract, the Society can afford to pay back part of what they have received. This it will do upon life policies in force of more than three years standing, the equitable amount to be returned being ascertained by calculation for each particular case. Or, if the chief motive for throwing up the policy is inability to pay future premiums, the Society will grant a new policy for a sum which the surrender value of the old one would suffice to buy—the new policy requiring no further payment.

To give an idea of the value of policies in these two ways, it may be stated that, if a person is assured for life at the age of thirty, for \$5000, the Society will give for his policy, after

3 annual payments,	\$108.08	cash, or a paid-up policy for	\$331.43.
5 “ “	186.53	“ “ “	547.61.
10 “ “	404.96	“ “ “	1062.80.

Permission to divide a policy will also be given, so that a sale of a part may provide the means for the payments upon the remainder; and thus the advantages of Life Assurance may be preserved to the extent of the means of the assured.

The Society will also give, when desired, certificates of the cash value of a policy over three years old, being the amount they are prepared to pay for it at any time, while the policy remains in force. The policy will thus furnish a perfect security for the amount named in the certificate, and can be made readily available in obtaining loans.

Assurers should notice here the great superiority of the cash system over the note system. In the former, the assured, having prudently paid at first a little more than necessary to cover the risk, has a sure support to fall back upon in case of emergency; in the latter, from the smallness of the cash payments made, the policy has no value, and must be thrown up, should there be even a slight failure of the resources of the assured, who very probably has been allured, by the dangerous facilities of credit, to assure beyond his means.

A n n u i t i e s .

A given sum of money, applied to the purchase of an annuity, will secure a person a larger certain annual income for life, (no matter how long,) than if invested in any other way—and the older the party, the greater the advantage. Annuities are, therefore, often bought by, or for, those who have none dependent upon them to be cared for after their death.

The rates adopted by this Society in the sale of annuities, will be seen in the annexed table.

The Society is also prepared to sell Deferred Annuities—to commence at any future date. In the price of these, allowance is made both for the improvement of the money at compound interest, and for the chance of the person dying before the annuity commences ; so that a little will go a great way in the procurement of a future income. These annuities may be bought either by one payment, or by annual payments, continuing for a certain number of years. A person can thus, while in health and vigor, provide for his own old age, or that of another.

Payment of Losses.

All losses are payable in sixty days after the receipt of satisfactory proof of death. In proving the death of a party assured, it is desirable that affidavits should be procured from the attending physician of the deceased, the clergyman officiating at the funeral, or a friend, and the sexton or undertaker having charge of the interment. Blank forms of affidavit will be furnished when required.

In all cases where the policy is payable to the widow, the check of the Society will be forwarded at maturity, *payable to her order* ; and in no case will it be necessary for her to employ professional services, (possibly involving considerable expense,) to realize the claim.

The table on the opposite page has been prepared to meet the objection often urged against Life Assurance, namely: that a person may make several payments, and then, through an unforeseen inability to pay further, lose all that he has previously paid. The new scheme, you will observe, secures to the Assured who may be placed in this situation, a Paid-up policy for a sum proportionate to the amount of Premiums actually paid by him. Thus, whether he pay more or less, he is sure to obtain the fair value of his money.

LIFE POLICY,

PAYABLE BY TEN ANNUAL PAYMENTS, WITHOUT FORFEITURE.

Table of Premiums, when Ten Annual Payments only are required to secure One Thousand Dollars, payable at the Death of the Assured.

Moreover this plan of Payments secures to the Assured a **PAID-UP POLICY** of

\$200, if he makes only **TWO** annual payments upon an Assurance of \$1000,

300,	do.	THREE	do.	do.	do.	do.

And so in proportion for larger Assurances.

The table also shows the semi-annual and quarterly payments corresponding to the annual.

These Policies do not participate in the profits of the business of the Society.

THE AMERICAN PUMP,

Patented April 5, 1859.

WITHOUT SUCTION—WITHOUT PACKING.

This is a DOUBLE ACTING FORCE PUMP, with but one bore and one piston, worked by a tee piece, having as much leverage and less friction in its working than any other pump heretofore invented. Warranted to give satisfaction, or the money will be returned; will not rust, will not freeze; throws water 40 feet by hose; or forces to great heights and distances by hand; simple, cheap, durable; prices from \$15 to \$60; works by power also; raises from 5 to 60 gallons per minute.

"The labor of working is very trifling."—*N. Y. Ch. Advocate & Jour.* "It brings a continuous stream with little or no labor."—*So. Planter, Va.* "It took the premium at our State Fair."—*Raleigh Register, N. C.* "We never saw one comparable to it."—*St. Louis Ch. Advocate.* "We consider it the best we have ever seen."—*Galveston News, Texas.* "It surpasses every thing we have examined."—*U. S. Journal.* "The most useful invention of the day."—*N. Y. Express.* "A boy of 10 years can work it at 60 feet."—*N. Y. Independent.* "One man forced water 540 feet and 97 perpendicular."—*Scientific American.* "We have seen one; a man can work it at 100 feet."—*Day Book, N. Y.* "Those who have used it speak highly of it."—*N. Y. Observer.* "We give it our unqualified approbation."—*Spanish Paper, N. Y.*

Complete drawings, prices, &c., &c., sent free.

JAMES M. EDNEY, 147 Chambers St., N. Y.

N. Y. May, 1860.—J. M. EDNEY, Esq.—Having had one of your No. 3 pumps in successful operation for 12 months, on my premises at Greenwich, Conn., which forces the water up a hill to the distance of 540 feet, and to an elevation of 97 feet, I am enabled to state that it has more than met my expectations, and has not only given satisfaction, but evidence of superior capability, strength and durability.

New York, April 18, 1860.—I hereby certify, that a No. 2 American Pump, placed in my reservoir near King's Bridge, forced water by the easy, regular work of two persons, to a perpendicular elevation of 210 feet, and horizontally 860 feet, discharging 5 gallons per minute, to my entire satisfaction.

In operation at 70 feet, at 432 E. 10th St., and at the office. Drawings and prices free.

AIR-TIGHT COOKING STOVES,
 FURNACE AND PORTABLE HEATERS, RANGES,

ALSO THE

Patent Parlor Heaters,

OR

FIRE-PLACE STOVES,

To heat from two to four rooms from the same fire; they combine the advantage of a FURNACE and STOVE, as there is a current of cold air brought in, warmed, and diffused throughout the rooms as desired. This Stove has been well tested, and put up under guarantee to give satisfaction, and when set up makes a beautiful ornamental finish. In this Stove we have made an improvement that protects the Mantel from heat, and at the same time adds much to the heat of the Stove, as there is an air chamber formed over the top of the fire, for heating the air, which prevents the air from escaping until thoroughly warmed. References of the most satisfactory kind can be given by the above.
